Did you know that our company has...

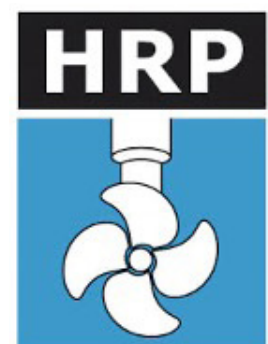

- 12000 m2 of workshop
- A large amount of lifting capacity
- Own engineering and 3d design department
- A big storage yard of 35000 m2
- Own truck and service cars
- 30 qualified employees
- Own machine shop

More than 40 years of experience in all types and brands of thruster systems:

- New build
- Overhaul
- Modification
- Repair
- Refit

Schraven is brand independent for the service of all kind of thruster systems:

Strong in service

We carry out an inspection on site, depending on the defects, we make repairs on board, at a shipyard, in a dry dock or in our workshop. We take care of everything; from collection and transportation to disassembly, repair, reinstallation and settlement of the insurance work, so that the downtime of your ship is kept as short as possible.

Are you aiming for an even shorter delivery time?

Have you ever considered a spare thruster?

We can take care of the storage.

Large stock

Our warehouse contains a wide range of spare parts for many brands and types of thruster systems. We keep a large number of (high-quality) gears, bearings, liners, seals, etc. in stock. Do not hesitate to call us and ask for that specific part that you need with some urgency. We know better than anyone how important it is to get the right parts on time.

Ask us for the possibilities of your ship at +31 26-3252328
